Incorporating the Scientific Publications of the
 Technion — Israel Institute of Technology, Haifa

Page

- 1 Symmetrical deformation of a thin toroidal shell of elliptical cross-section *A. Kornecki*
- 11 Reagent for rapid microscopic carbide detection in austenitic steels *P. Wynblatt and A. Taub*
- 15 Viscous strain hardening in bread doughs *J. Glucklich, R. Schoenfeld-Reiner and L. Shelef*
- 17 Second order terms of deformation in simple shear *Z. Karni*
- 33 A sensitive two-liquid micro-manometer *A. Kogan*
- 37 Non-enzymatic browning in commercial glucose syrups *R. Schachtel, J. B. S. Braverman and W. Groag*
- 51 A short note on the conditions for maximum sensitivity of the D. C. Wheatstone bridge *S. Stricker*
- 55 Encounter of vehicles at intersections *M. Peleg*

LETTER TO THE EDITOR

- 61 Shear stresses in a square diamond section *A. Zaslavsky*

NOTICE TO CONTRIBUTORS

Contributors to the *Bulletin of the Research Council of Israel* should conform to the following recommendations of the editors of this journal in preparing manuscripts for the press.

Contributions must be original and should not have been published previously. When a paper has been accepted for publication, the author(s) may not publish it elsewhere unless permission is received from the Editor of this journal.

Papers may be submitted in English and in French.

MANUSCRIPT
General

Papers should be written as concisely as possible. MSS should be typewritten on one side only and double-spaced, with side margins not less than 2.5 cm wide. Pages, including those containing illustrations, references or tables, should be numbered.

The Editor reserves the right to return a MS to the author for retyping or any alterations. Authors should retain copies of their MS.

Spelling

Spelling should be based on the Oxford Dictionary and should be consistent throughout the paper. Geographic and proper names in particular should be checked for approved forms of spelling or transliteration.

Indications

Greek letters should be indicated in a legend preceding the MS, as well as by a pencil note in the margin on first appearance in the text.

When there is any room for confusion of symbols, they should be carefully differentiated, e.g. the letter "1" and the figure "1"; "O" and "0".

Abbreviations

Titles of journals should be abbreviated according to the *World List of Scientific Periodicals*.

Abstract

Every paper must be accompanied by a brief but comprehensive abstract. Although the length of the abstract is left to the discretion of the author, 3% of the total length of the paper is suggested.

References

In Sections A and C, and in Letters to the Editor in all Sections, references are to be cited in the text by number, e.g. ... Taylor³ ..., and are to be arranged in the order of appearance.

In Sections B, D, E, and G, the references are to be cited in the text by the author's name and date of publication in parentheses, e.g. (Taylor 1932).... If the author's name is already mentioned in the text, then the year only appears in the parenthesis, e.g. ... found by Taylor (1932).... The references in these Sections are to be arranged in alphabetical order.

In Section F, references are to be cited in the text by number in square brackets, e.g. ... Taylor [3]. ..., and are to be arranged in alphabetical order.

The following form should be used:

3. TAYLOR, G. I., 1932, *Proc. roy. Soc.*, A138, 41.

Book references should be prepared according to the following form:

4. JACKSON, F., 1930, *Thermodynamics*, 4th ed., Wiley, New York.

TYPOGRAPHY

In all matters of typography, the form adopted in this issue should be followed. Particular attention should be given to position (of symbols, headings, etc.) and type specification.

ILLUSTRATIONS

Illustrations should be sent in a state suitable for direct photographic reproduction. Line drawings should be drawn in large scale with India ink on white drawing paper, bristol board, tracing paper, blue linen, or blue-lined graph paper. If the lettering cannot be drawn neatly by the author, he should indicate it in pencil for the guidance of the draftsman. Possible photographic reduction should be carefully considered when lettering and in other details.

Half-tone photographs should be on glossy contrast paper.

Illustrations should be mounted on separate sheets of paper on which the caption and figure number is typed. Each drawing and photograph should be identified on the back with the author's name and figure number.

The place in which the figure is to appear should be indicated in the margin of the MS.

PROOFS

Authors making revisions in proofs will be required to bear the costs thereof. Proofs should be returned to the Editor within 24 hours; otherwise no responsibility is assumed for the corrections of the author.

REPRINTS

Reprints may be ordered at the time the proof is returned. A table designating the cost of reprints may be obtained on request.

Orders in America should be addressed to Interscience Publishers Inc., New York, N. Y., and in England and Europe to Wm. Dawson and Sons, Ltd., Cannon House, Macklin Street, London, W. C. 2, directly or through booksellers. — Annual subscription per section (four issues): IL. 6.000 (£ 6.00, £ 2.20). Single copy: IL. 1.500 (§ 1.50, 12s.). — Manuscripts should be addressed: The Editor, The Weizmann Science Press of Israel, P.O.B. 801, Jerusalem, 33 King George Ave. Telephone 62844

BOOK REVIEW

METAL FINISHING ABSTRACTS, a bi-monthly publication, edited by R. PINNER, first issue January-February 1959, annual subscription rate (six issues) by surface mail £5 (\$15), by airmail £7 (\$20), published in England by Robert Draper.

For the worker interested in the behaviour of metal surfaces, as in other fields, coverage of the wide and ever-growing literature is a daily problem. Abstracts already appear dealing with ferrous and non-ferrous metals and with paints and corrosion, but there is undoubtedly room for a publication abstracting the literature dealing with metal finishing, even though a certain amount of overlapping is unavoidable.

Metal Finishing Abstracts appears to fulfil this purpose adequately. The abstracts will cover approximately 600 publications dealing not only with the various aspects of metal finishing but also with a wide range of relevant branches of science. The dates of 34 of the more important publications and the patents of five countries abstracted in the first number are listed and an author index is given. The abstracts themselves are grouped according to 20 different subjects, ranging from Metal Cleaning and Anodic Oxidation to Plastics and Rubber and Tests and Analysis, but a list of the subjects with a page index would have been useful.

It has been noted that whilst three Israel publications are abstracted (not including the *Bulletin of the Israel Institute of Metals*) the *British Journal of the Iron and Steel Institute* and the French *Corrosion et Anti-Corrosion* have been omitted.

Photostat, translation and bibliographical services are available from the publishers.

COMITE INTERNATIONAL DE LA DETERGENCE (C.I.D.)

Deux des Commissions Techniques du COMITE INTERNATIONAL DE LA DETERGENCE se sont réunies récemment:

Le 9 Janvier 1959, à LEVERKUSEN (Allemagne), sous la présidence du Professeur LONCIN (Belgique), la *Commission Internationale de Terminologie* (C.I.T.) a poursuivi ses travaux sur la définition de plusieurs termes généraux du comaine des surfactifs, et comparé des projets allemand et français de classement des agents de surfactifs.

Les 19 et 20 Janvier 1959, à VLAARDINGEN (Pays-Bas), la *Commission Internationale D'Analyses* (C.I.A.) s'est réunie sous la présidence du Dr. STURM (Suisse). Après avoir établi son règlement intérieur, la Commission a entendu les rapports qui lui étaient présentés sur l'analyse des:

savons

alkylarylène sulfonates de sodium

alkyl sulfates primaires.

Pour terminer, la Commission a distribué aux différentes délégations nationales des travaux à effectuer pour la prochaine réunion qui doit avoir lieu à MILAN, à la fin de Septembre 1959.

Le Professeur LONCIN et le Dr. STURM, ainsi que le Dr. SCHWEN, Président de la *Commission Internationale D'Essais* (C.I.E.), rendront compte des activités de leurs Commissions respectives au cours de la prochaine réunion du Bureau du *Comite International de la Detergence*.

MAGNETISM AND MAGNETIC MATERIALS TO BE SUBJECTS OF NOVEMBER CONFERENCE IN DETROIT

The College of Engineering of the University of Michigan has announced that the Fifth Conference on Magnetism and Magnetic Materials will be held in Detroit, Michigan, November 16-19, 1959, at the Sheraton-Cadillac Hotel.

This conference is sponsored by the American Institute of Electrical Engineers in cooperation with the Office of Naval Research, the Metallurgical Society of the AIME, the American Physical Society and the Institute of Radio Engineers.

Interested scientists are invited to submit abstracts, which should be received by J. E. Goldman, Scientific Laboratory, Ford Motor Co., P.O.Box 2053, Dearborn, Michigan, by August 25.

Instructions to authors as well as further conference details can be obtained from D. M. Grimes, Department of Electrical Engineering, University of Michigan, Ann Arbor, Michigan.
